Portfolio | <https://tylerrutt17.github.io/Portfolio/>

Creative software engineer with the ability to pick up new languages and technologies as needed. Always open to learn and adapt to the changing tech world.

Software Development Skills

- Debugging, JavaScript, Python, Node.js, Express, PostgreSQL, Sequelize, Flexbox AWS, HTML, CSS, JQuery, AWS, Bootstrap.

Education

- Liberty University, Lynchburg, VA (8/1/19 - 12/9/19)
 - Studying B.S. information technology
 - 45 College Credits completed
- Digital Crafts | Certificate in Software Engineering | Atlanta GA
 - Software engineering training program covering full-stack development including, but not limited to Javascript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies, including Node.js, Express and PostgreSQL.

Software Development Portfolio

- Covid Tracker https://github.com/Tylerrutt17/Front_End_Project
 - Helped lead development efforts in creating an online application that allows users and anyone to view Covid related information as displayed on a Map of the U.S.
 - Users, through hovering over a Leaflet map of the United States are enabled to view data per specific State, as relates to COVID.
 - Built with Node.js, Express, Passport and SQL.
- BattleFront Infinity (Website Game) https://github.com/Tylerrutt17/Javascript_Game
 - Live App Link - https://tylerrutt17.github.io/Javascript_Game/
 - Designed and built an object-oriented video as a solo software development project.
 - Uses the Star Wars theme and images to create an immersive interactive RPG style game.
- Website Clone https://github.com/Tylerrutt17/html_css_project
 - Live Page Link - https://tylerrutt17.github.io/html_css_project/#
 - Lead and Solo effort of designing this website in attempts to as closely as possibly clone my version of another randomly chosen website.
 - Uses Html and CSS styling to achieve completed project.
- Foods Near You
 - A Project Created and Led by Tyler Rutt, Rashad Collins, and Christian Alston. Uses ElephantSQL and Yelps Food and Review Api to load a few restaurants near the users location.
 - Users can click on restaurants and view queries nearby.
- Super Duper Sounds
 - Audio uploading app. Users can upload audio and music tracks. Requires users to login
